Implementation of Charges for
Misdeclaration of Cargo Weight

Dear Valued Customers,

To maintain a safe transportation, pursuant to regulations of SOLAS and relevant applicable law, shipper is responsible for providing an accurate verified gross mass, and any containers without VGM and/or gross mass exceeding its maximum payload will NOT be loaded onto a ship.

We would like to inform that a charge of USD 30,000.00 per container will be imposed upon shipper and/or consignee making any misdeclaration of the cargo weight which in effect exceeds the maximum payload of the container used for the carriage. Misdeclaration includes but not limited to incorrect/partial declaration, late declaration, alteration or omission of such declaration.

In addition to this charge, shipper and consignee will be held liable and responsible for all risk and cost, includes but not limited to all corrective measures, claims, fines, liabilities, losses, delays, damages or expenses arising in consequence of such misdeclaration.

Please note that failure to properly declare cargo weight constitutes a breach of contract which violates the applicable law, endangers lives and adversely affects the operations of the entire supply chain. We require our customers to correctly declare all cargo weight to maintain the safety of the transportation.

Thanks a lot for your cooperation.

Yours sincerely,

Asean Seas Line Co.,Limited
